### Personal History

I'm a Front-end developer with extensive experience in building high-quality sites.

My experience ranges from building responsive sites that work well cross-browser.

I like working on projects with a team that cares about creating beautiful and usable interfaces. It's important for me to build long term relationships with clients, so I'm primarily looking for long term projects.

I'm flexible with my working hours and I look forward to hearing from you

### FRONTEND DEVELOPER

QAD DynaSys | Demand & Supply Chain Planning Software

Spain

12/11/2019 - present

Projects can't be published based on NDA restrictions

### FRONTEND DEVELOPER

HI -TECH GATWAY LLC

Armenian branch

Armenia

01/09/2015 - 01/11/2019

- Project name: Vshoo

An application for an online taxi order. This application allows us to order a taxi from the browser. I worked on the Front End part. In this project, I used Facebook JavaScript SDK, Google JavaScript SDK, Google map API. To see more please sign up and log in.

<https://www.vshoo.com/start-action.htm>

- Project name: Connecttotv

Includes over 900 best channels from around the world. There are available packages for Armenian, Russian, and Arabic Iranian channels in addition to US channels. I have created our own web player. In this project I used the Angular framework.

To see more please sign up and log in.
